

17" LCD Drawer KVM Console with 8 Ports Combo-Free Module

The PLANET DKVM-1708 is the drawer KVM with single-rail console design offering industrial level input solution, which optimizes your space utilization by controlling your systems in just 1U space on the rack. The separate rail design helps users to use the 8-Port combo-free KVM easily. Users do not have to prop the heavy console during the installation but just lock the rails into the rack and then pull the KVM console into the rails. Simply use the supplied Combo VGA cable set to link the ports to the console ports of your KVM Switch, regardless of the connected port interface USB or PS/2.

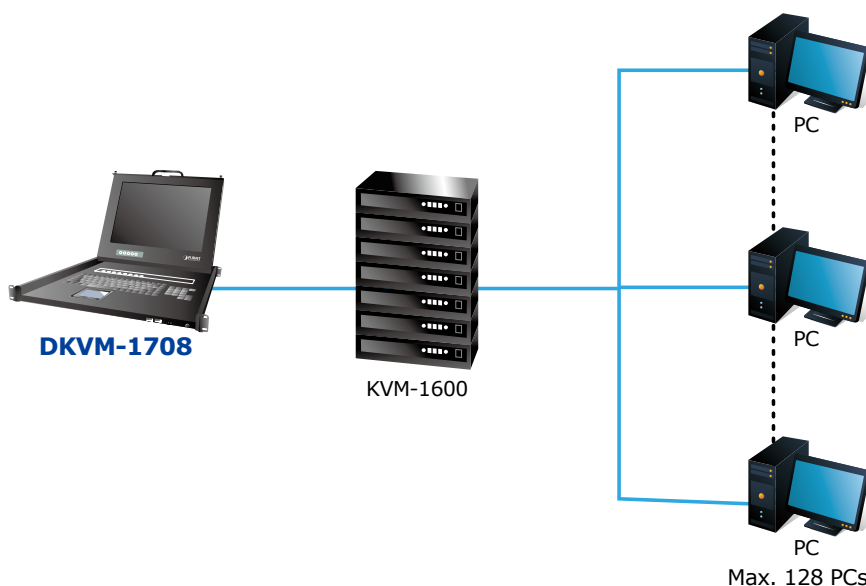

The combo-free KVM Switch modules are loaded with rich features, such as one local console port, Daisy chain capability, On Screen Display (OSD) menu, Password security, Searching PC server name, Hot key control, Push button and Auto-Scan control, complete keyboard and mouse emulation for simultaneously PC boot-up processes.

KEY FEATURES

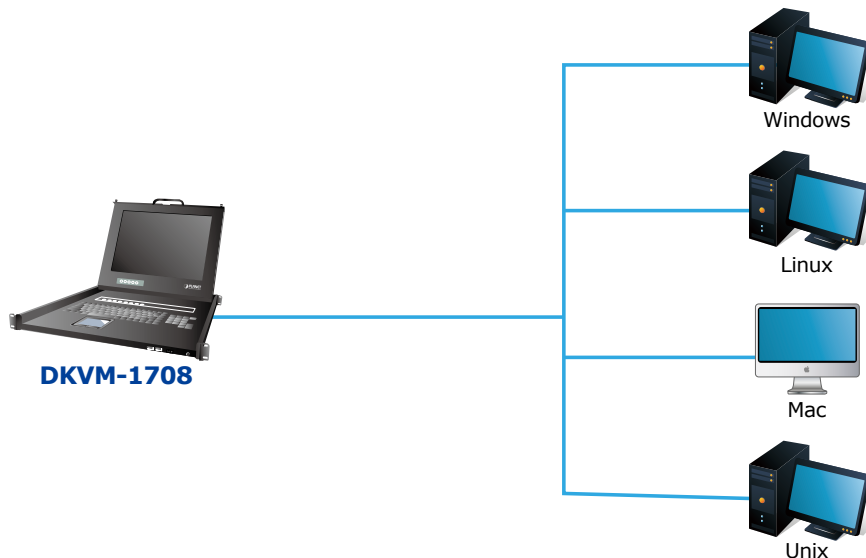

- Single rail design, easy to install
- Supports high resolution up to 1280 x 1024 @ 75Hz
- Supports 6 keyboard languages (continually increase)
- Heavy-Duty Electroplate Steel
- OSD function for LCD display and KVM Switch
- Complies with EIA RS-310C 19" Rack Mount standard
- Supports Combo KVM module to connect servers / KVM via USB & PS/2 connection
- Cascade controls 128 sets of PCs
- Fully supports Logitech / Microsoft / IBM PS/2 mouse / trackball and compatible PS/2 mouse / trackball
- Supports hot plug; not necessary to turn off the original system regardless of a newly installed PC or KVM

APPLICATIONS

Integrated with PLANET KVM Switches KVM-800 and KVM-1600, a KVM chain can be constructed easily by using the DKVM-1708.

The Combo-Free KVM is connected to any PC or server directly without concern of keyboard / mouse interface compatibility.
