HPOE-1200G

HPOE-2400G

Product Overview

◆ The 12-/24-port POE Injector Hub Family

Product Overview

- ◆ **What are the differences between IEEE 802.3af and IEEE 802.3at?**
 - ✓ **IEEE 802.3af** offers a maximum of **15 watts**.
 - ✓ **IEEE 802.3at** offers up to **30 watts**, more power than IEEE 802.3af, and can drive high power consumption PoE device, such as PTZ / speed dome camera.

Product Overview

◆ HPOE-1200G Front Panel - Interface

- ✓ 24-Port 10/100/1000Mbps with POE Ports
 - 12 ports on the upper stack are data and power ports.
 - 12 ports on the lower stack are data ports.
- ✓ 1-Port 10/100Mbps management port.
- ✓ **LEDs**
 - Power LED
 - Power Failure LED
 - Fan Failure LED
 - Link / Activity LED
 - PoE-in Use LED
- ✓ Reset Button

Product Overview

◆ Rear Panel of HPOE-1200G

- ✓ 100~240V AC, universal power supply
- ✓ 1 power switch
- ✓ 2 cooling fans

Product Overview

◆ HPOE-2400G Front Panel - Interface

- ✓ 48-Port 10/100/1000Mbps with POE Ports
 - 24 ports on the upper stack are data and power ports.
 - 24 ports on the lower stack are data ports.
- ✓ 1-Port 10/100Mbps management port.

LEDs

- Power LED
 - Power Failure LED
 - Fan Failure LED
 - Link / Activity LED
 - PoE-in Use LED
- ✓ Reset Button

Product Overview

◆ Rear Panel of HPOE-2400G

- ✓ 100~240V AC, universal power supply
- ✓ 1 power switch
- ✓ 4 cooling fans (3 on rear panel and 1 on inner case)

Key Benefits

- ◆ **Cost-effective 12-/24-Port Gigabit Mid-Span Power over Ethernet Injector Hub**
- ◆ **Complies with IEEE 802.3af / IEEE 802.3at 52V DC per port maximum 15.4 / 30.8 watts**
- ◆ **Provides PoE Power Schedule feature to save power**
- ◆ **Automatically detects powered device and consumption level**
- ◆ **Remote PoE Power management by WEB**
- ◆ **Provides PoE per port power feeding limit and priority**
- ◆ **Provides temperature over protection to prevent device damage**
- ◆ **Provides SNMP and SNMP trap**
- ◆ **Provides local system log and remote system log for management**
- ◆ **19-inch rack mountable; 1U height**

Product Feature

◆ Hardware of HPOE-1200G

- ✓ **24-Port 10/100/1000Mbps RJ-45 interface**
 - **12 ports** on the upper stack are **Data and Power** ports
 - **12 ports** on the lower stack are **Data** ports
- ✓ **1 x 10/100Mbps RJ-45 Management port**
- ✓ **Fan failure LED on the front panel for alert**
- ✓ **PoE power failure LED on the front panel for alert**
- ✓ **Reset button on the front panel**

Product Feature

◆ Hardware of HPOE-2400G

- ✓ **48-Port 10/100/1000Mbps RJ-45 interface**
 - **24 ports** on the upper stack are **Data and Power** ports
 - **24 ports** on the lower stack are **Data** ports
- ✓ **1 x 10/100Mbps RJ-45 Management port**
- ✓ **Fan failure LED on the front panel for alert**
- ✓ **PoE power failure LED on the front panel for alert**
- ✓ **Reset button on the front panel**

Product Features

◆ Power over Ethernet

- ✓ Complies with IEEE 802.3af / IEEE 802.3at Power over Ethernet Mid-Span PSE
- ✓ PoE Pin Assignment 4/5(-), 7/8(+)
- ✓ 12 Gigabit copper ports with PoE injector (HPOE-1200G)
- ✓ 24 Gigabit copper ports with PoE injector (HPOE-2400G)
- ✓ 52VDC, 15.4 / 30.8 watts per port PoE power output
- ✓ 360-watt PoE power budget for HPOE-1200G
- ✓ 720-watt PoE power budget for HPOE-2400G
- ✓ Automatically detects powered device and consumption levels
- ✓ Circuit protection to prevent power interference between ports

Model		HPOE-1200G	HPOE-2400G
PoE Budget		360 watts	720 watts
PoE Ability	Number of Class 2 PD @ 7.3 watts	12	24
	Number of class 3 PD @ 15.4 watts	12	24
	Number of class 0, 4 PD @ 30.8 watts	12	24
Input Power		100~240V AC	100~240V AC

Product Feature

◆ PoE Management

- ✓ PoE Admin function enable / disable
- ✓ Total PoE power budget control
- ✓ Per port PoE power schedule
- ✓ Per port PoE function enable / disable
- ✓ Per port IEEE 802.3at / 802.3af mode switch
- ✓ PoE port power feeding with priority
- ✓ Per PoE port power limit
- ✓ PD classification detection automatically
- ✓ PD alive check function
- ✓ PoE Per port usage status
- ✓ Over temperature protection
- ✓ PoE temperature threshold
- ✓ PoE power usage threshold

Product Feature - UI

PoE Configuration

System PoE Admin Mode	Enable <input type="checkbox"/>
Power Supply	52 V
PoE Temperature Unit 1	28°C / 82°F
PoE Temperature Unit 2	27°C / 81°F
Power Limit Mode	Consumption <input type="checkbox"/>
Over Temperature Protection	Enable <input type="checkbox"/>
Temperature Threshold	50 °C

PoE function mode switch.

PoE function switch.

This value is set to relate Over Temperature Protection.

System temperature detection.

Per port PoE function switch.

Over Temperature Protection switch.

Power Allocation 0% 0 W / 720 W

Port	PoE Function	Power Mode	Priority	Device Class	Current Used [mA]	Powered Used [W]	Power Limit[W]
1	Enable <input type="checkbox"/>	3 at <input type="checkbox"/>	Critical <input type="checkbox"/>	--	0	0	30.8
2	Enable <input type="checkbox"/>	3 at <input type="checkbox"/>	Critical <input type="checkbox"/>	--	0	0	30.8
					0	0	30.8
					0	0	30.8

Power mode offers per port AT/AF mode changing.

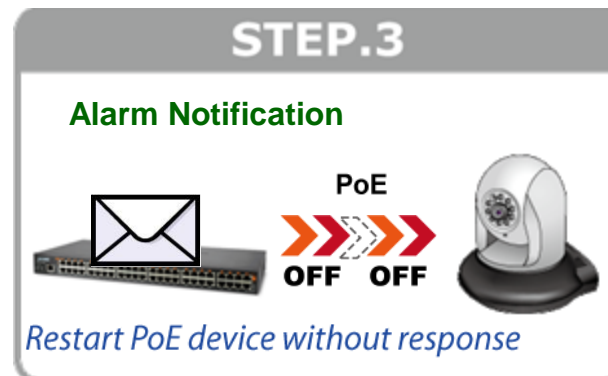

Per PoE port priority switch.

Per PoE port power allocation.

Product Features – PD Alive Check

◆ Intelligent Powered Device Alive-Check

- ✓ The HPOE-1200G/HPOE-2400G can be configured to **monitor connected PD (Powered Device) status in real-time** via ping action.
- ✓ Once the PD stops working and responding, the HPOE-1200G/HPOE-2400G will resume the PoE port power and bring the PD back to work.

Product Features - Over Temperature Protection

◆ Over Temperature Protection Enabled

Auto adjust PoE budget

STAGE-2

STAGE-1

Data + Power

PD:
PoE IP Cam

Avoid overheating PoE Hub owing to high temp.

Product Feature – PoE Power Schedule

◆ PoE Power Schedule

Total saved 24 watts/hr during off hours
Total saved 10800 watts/month

Product Features – PoE Power Schedule

◆ 3 steps for configuring PoE schedule

- 1 Choose the port you want to include in the profile.
- 2 Decide what time to power the PoE device by the Hub.
- 3 Enable the profile.

Up to 24 profiles for you apply to different PoE schedule requirements.

Product Features – PoE Power Schedule

Product Features

◆ System Management

- ✓ **HTTP** remote Web management
- ✓ **Network Time Protocol (NTP)**
 - System time synchronization
- ✓ **SNMP** management and **SNMP Trap**
 - SNMP trap for interface Link Up ,Link Down, PoE power on, PoE power off notification
- ✓ **DHCP Client**
- ✓ **Firmware upgrade and Configuration backup / restore by HTTP**
- ✓ **System Log and Syslog**
 - System log could be logged to the Hub and remote server

Product Features

◆ PoE IP Telephony Office

- ✓ **The Gigabit High Power PoE Injector Hub** provides the easiest way to power your Ethernet devices such as IP Camera on the ceiling and the Wireless Access Point installed on the top of the building.
- ✓ To control the power system of your networking devices, HPOE-1200G / HPOE-2400G can directly co-work with PoE IP phone to build VoIP telephony network in the office.

Applications

**IEEE 802.3at
30 watts**

**IEEE 802.3af
15.4 watts**

Appendix Sales Target

◆ Target Markets

- ✓ **SMB IP Communication Office**
- ✓ **System Integrator**
- ✓ **IP Surveillance integrator**
- ✓ **Hotel / Internet cafe**

◆ Profitable Products

- ✓ The following PoE devices are potential to all customers:
 - PoE Switches: FGSD-1022HP, GSD-808HP, WGSW-2620HP, WGSD-10020HP
 - PoE Splitters/Injectors/Converters: POE-162, POE-162S, GTP-80x Series, HPOE-460

- ✓ The following Outdoor Standard PoE IP Cameras/Wireless Devices are potential to all customers:
 - PoE IP Cameras: ICA-3250V/3350V/HM312/HM316/HM351/HM620
 - Standard PoE Wireless Devices: WNAP-6350/7350

ACTIVATING IP POWER
