# Product Overview

## ◆ The PLANET **NAS** Product Family / Map

# Product Overview

- **NAS-7202**

- **Hardware Spec.**

- ✓ 2 x 3.5" SATA I/II/III Interface  
(The system is shipped without hard disk drives)
- ✓ 1 x Gigabit RJ-45 Ethernet port
- ✓ 3 x Button (USB One-touch, Power, Reset)
- ✓ 5 x LED Indication (HDD1, HDD2, USB, LAN, Power)
- ✓ 2 x USB 2.0 Port (front:1; back:1)  
(External Print Server Sharing and USB HDD)
- ✓ 1 x Internal cooling fan with temperature control

# Product Overview

- **NAS-7202**

- Software Spec.

- ✓ Disk Management

- ✓ Single Disk, JBOD, RAID 0 / 1

- ✓ Supported Operating System:

- ✓ Microsoft Windows 2000, XP, Vista (32/ 64 bit), Windows 7 (32/ 64 bit), Windows Server 2003/ 2008

- ✓ Apple Mac OS X

- ✓ Linux & Unix

- ✓ File Protocols

- ✓ WebDAV, SMB/CIFS, FTP, NFS, AFP, Time Machine, SSH

- ✓ Multimedia Server

- ✓ iTunes/ DLNA / UPnP AV Server

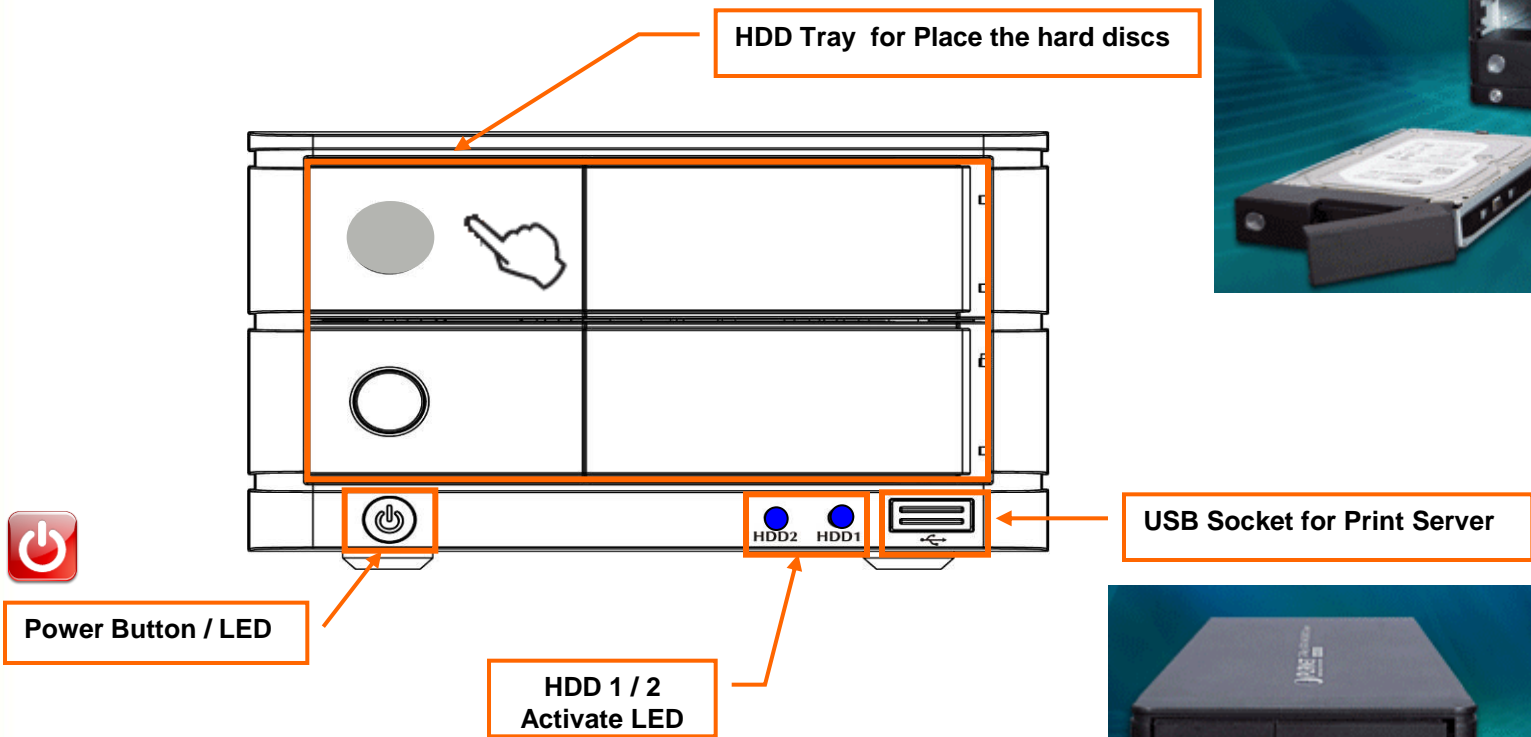

- ✓ Backup Solution

- ✓ One Touch Backup

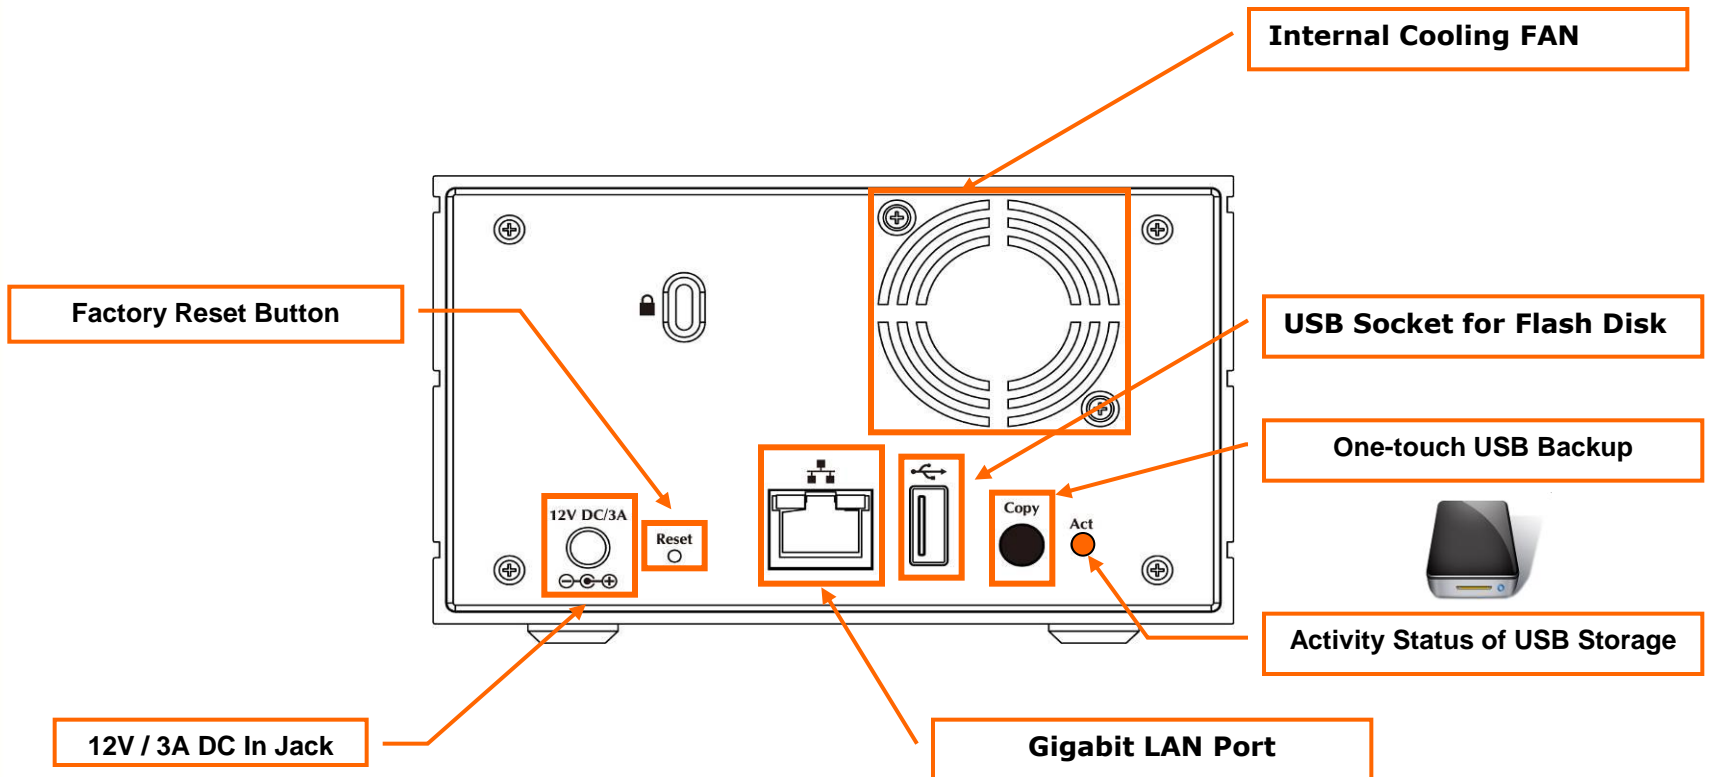

# Product Overview

# Product Overview

## Rear view

## Product Benefits

- ◆ An easy-to-use storage center for new digital home experience
- ◆ Multimedia Station: Home Entertainment Center for Sharing Photos, Music, Movies and Videos
  - ✓ Home Music Center: Build your own home music library and enjoy it anywhere
  - ✓ Home Photo Center: Back up and share your digital photos
  - ✓ Home Movie/Video Center: PLANET 2-bay NAS with large storage capacity and high performance for your home theater

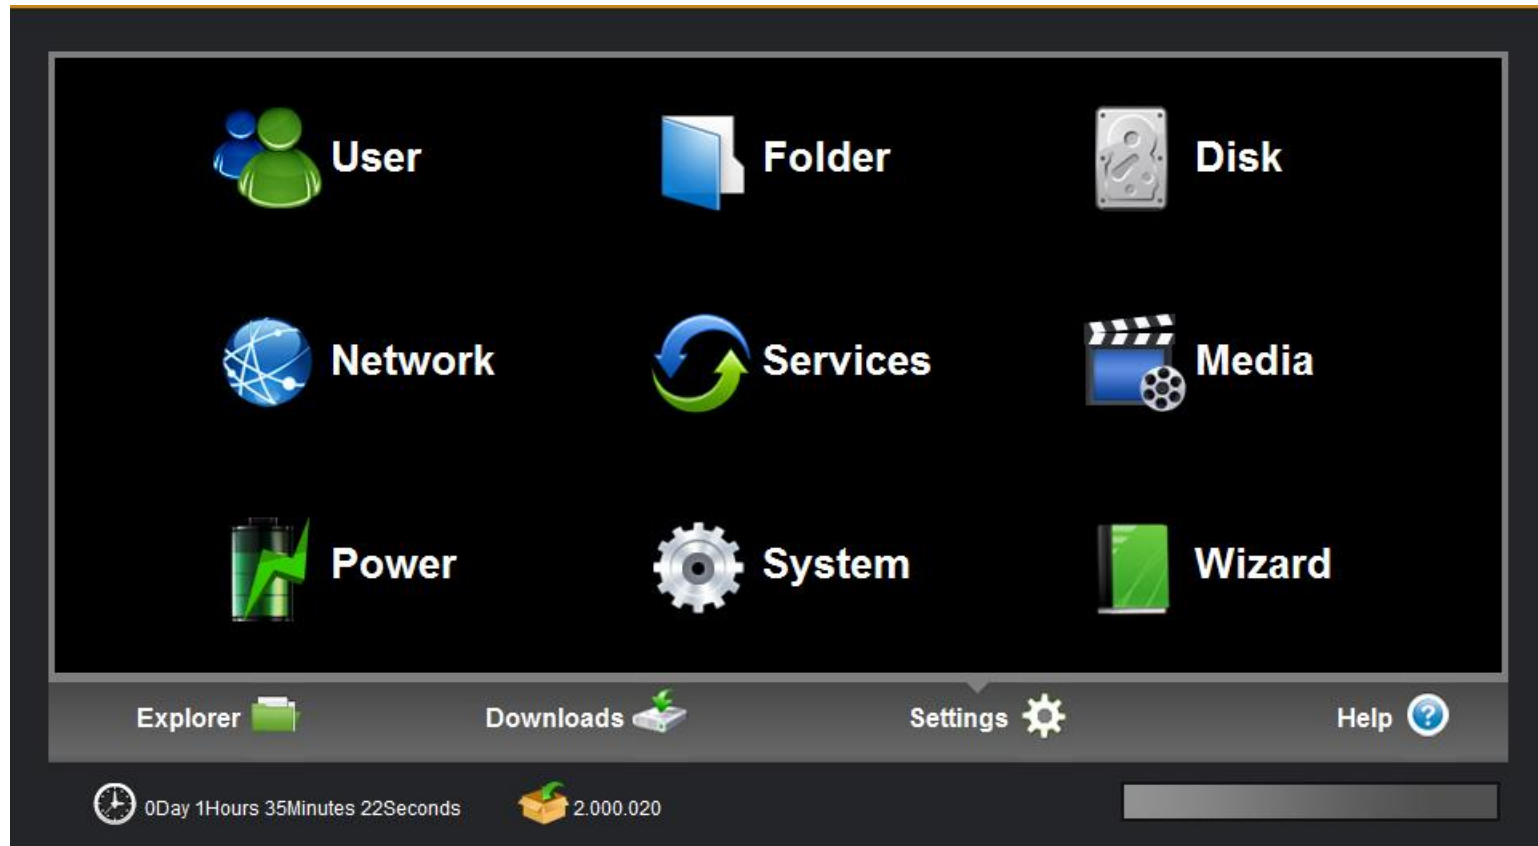

# Product Features

- ◆ Network
  - ✓ **Gigabit Ethernet** Interface
  - ✓ **UPnP** and **DLNA** certified Digital Media Server
  - ✓ **iTunes** Media Server
  - ✓ **BitTorrent** Download
- ◆ Management
  - ✓ Support **RAID 0, 1** and **JBOD**
  - ✓ **Windows** and **Apple MAC** Utility for quick setting
  - ✓ Easy to Use **Web** configuration and **Wizard** setting
  - ✓ User Friendly On-line **Help** for quick search
  - ✓ **One Touch Backup** for quick protect your data
  - ✓ Share **Music, Pictures, Movies** and **Data** over Network

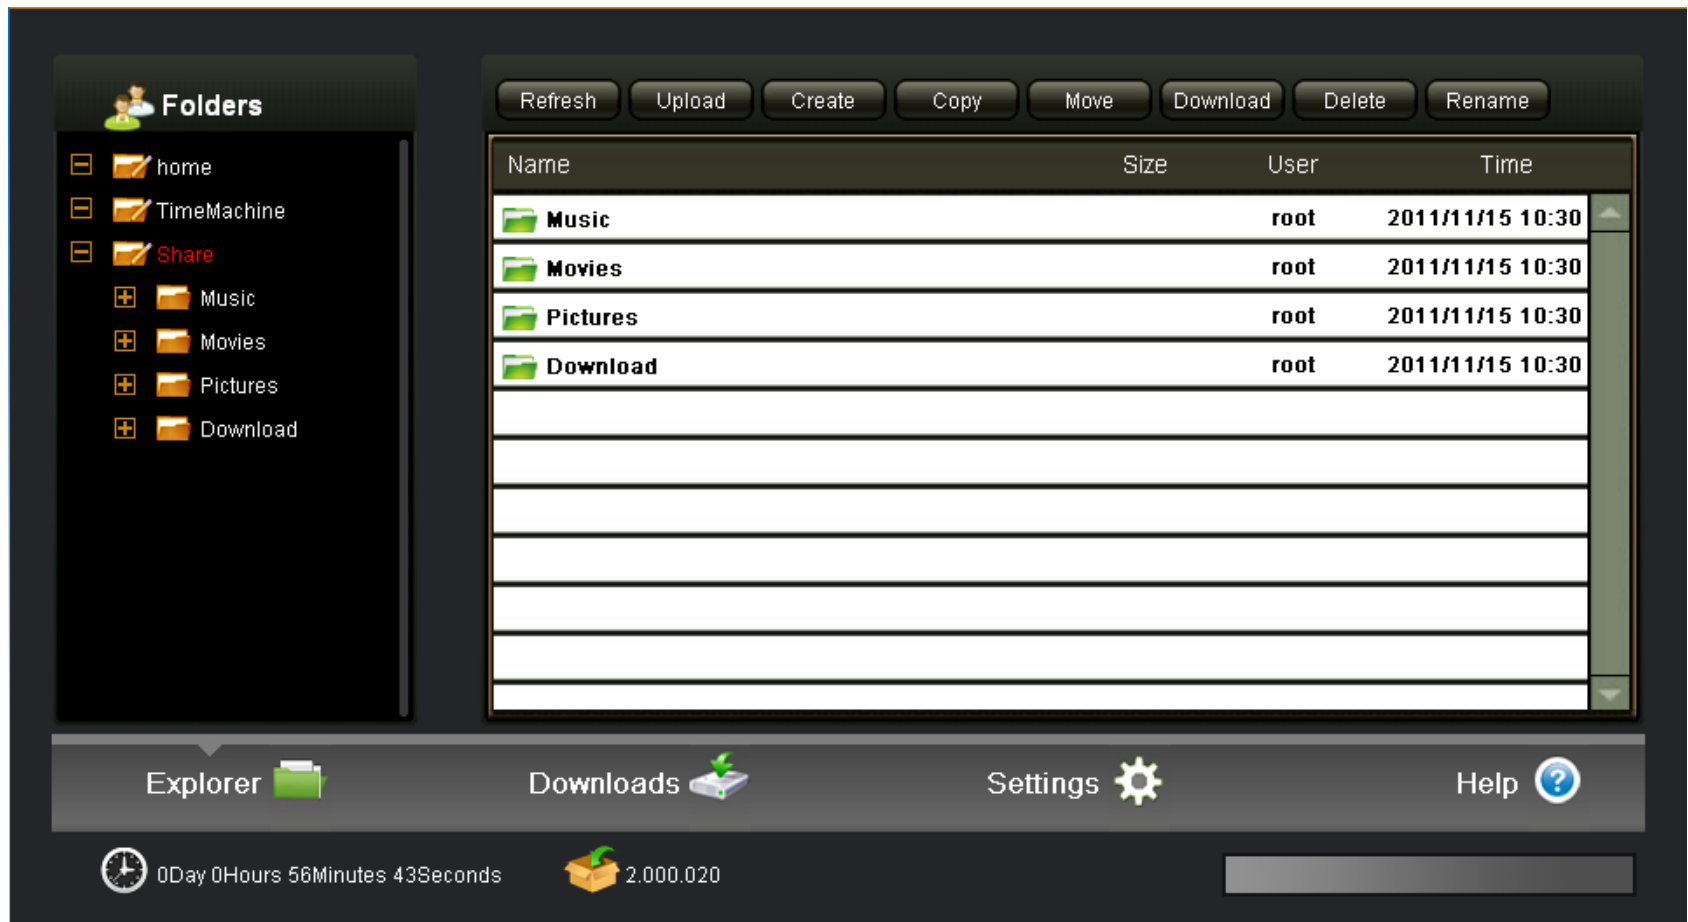

# Web Interface

- User Friendly Web Configuration
  - The NAS is designed with user-friendly **ICON** web interface and **Wizard** to complete the installation in few minutes, you can easily enjoy all the features - No IT instructions required.

# Web Interface

- Ease of User and Share Folder Management
  - Share Music, Pictures, Movies and Data over Network

The screenshot displays a web-based file management interface. On the left, a sidebar titled "Folders" shows a tree view with "home", "TimeMachine", and "Share" (highlighted in red). Under "Share", there are sub-folders for "Music", "Movies", "Pictures", and "Download". The main area features a table with columns for "Name", "Size", "User", and "Time". Above the table are buttons for "Refresh", "Upload", "Create", "Copy", "Move", "Download", "Delete", and "Rename". The table lists four folders: Music, Movies, Pictures, and Download, all owned by "root" and created on "2011/11/15 10:30". At the bottom, there is a navigation bar with "Explorer", "Downloads", "Settings", and "Help" icons. A status bar at the very bottom shows a timer at "0Day 0Hours 56Minutes 43Seconds" and a file count of "2,000,020".

Name	Size	User	Time
Music		root	2011/11/15 10:30
Movies		root	2011/11/15 10:30
Pictures		root	2011/11/15 10:30
Download		root	2011/11/15 10:30

# Web Interface

- Powerful All-in-one Server Features
  - The NAS supports BT, FTP, and HTTP download.

The screenshot displays the 'Download Manager' web interface. On the left, there is a sidebar with three sections: 'Downloading' (with a download icon), 'Complete' (with a checkmark icon), and 'Trash' (with a trash can icon). The main area features a toolbar with an 'Add' button and several icons for file management. Below the toolbar is a table with the following data:

Task Name	Size	Process	Type	Directory
<input checked="" type="checkbox"/> download	20.9KB	100%		/homes/brandon
<input checked="" type="checkbox"/> download	20.9KB	100%		/homes/admin
<input checked="" type="checkbox"/> wrar401.exe	1.3MB	100%		/homes/admin

At the bottom of the interface, there is a navigation bar with 'Explorer' (folder icon), 'Downloads' (download icon), 'Settings' (gear icon), and 'Help' (question mark icon). Below the navigation bar, a status bar shows a clock icon with the text '2Day 3Hours 12Minutes 17Seconds' and a download icon with the text '2,000,009'.

# Web Interface

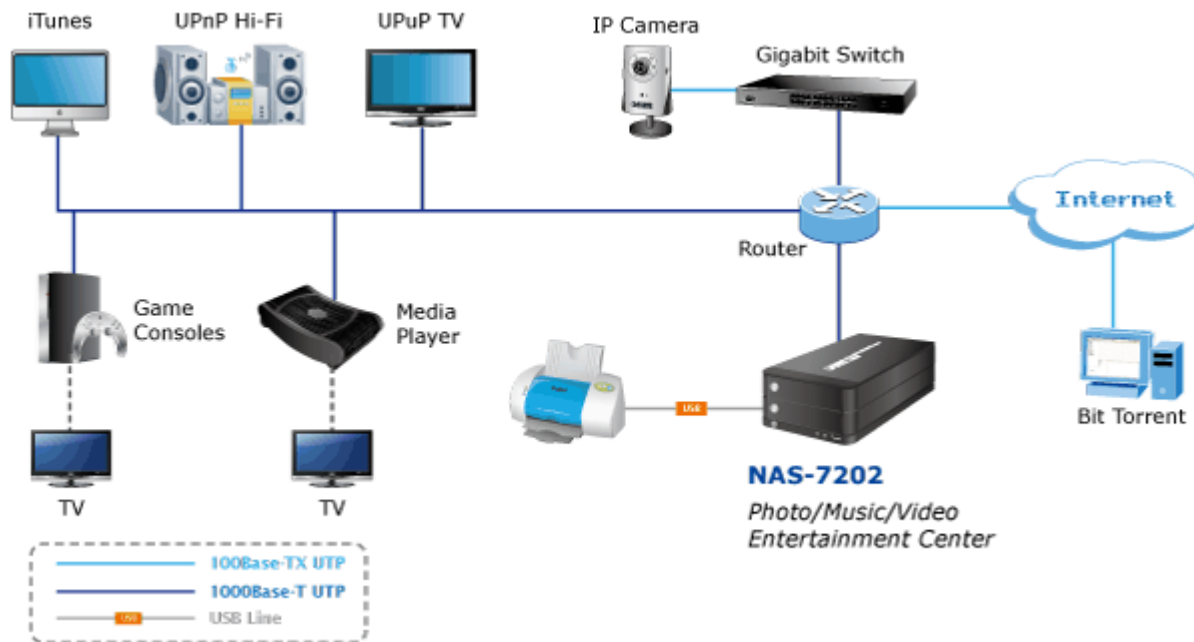

- Easy installation and Real-time Helper
  - On-line [Help](#) information can easily search all the features - No IT instructions required.

The screenshot displays the 'Help' section of the Planet Web Interface. On the left, a sidebar menu lists the following items: MAIN UI, 1. Setting, 2. DOWNLOAD (with sub-items 2.1 Add new task and 2.2 Download task manag), 3. Explorer, and FAQ. The main content area is titled 'How to use Win file service:' and contains two numbered instructions. Instruction 1) describes the steps for Windows OS: clicking 'Start', selecting 'Run', and inputting an IP address (e.g., ftp://192.168.7.10) or host name, followed by clicking 'confirm'. Instruction 2) describes the steps for MAC 10.5.5 or above: opening the Finder in the toolbar. Below the text is an image of the Mac OS X desktop with the Finder icon highlighted. The interface also features a bottom navigation bar with icons for Explorer, Downloads, Settings, and Help, and a status bar at the very bottom showing a timer (0Day 0Hours 23Minutes 48Seconds) and a download count (2,000,020).

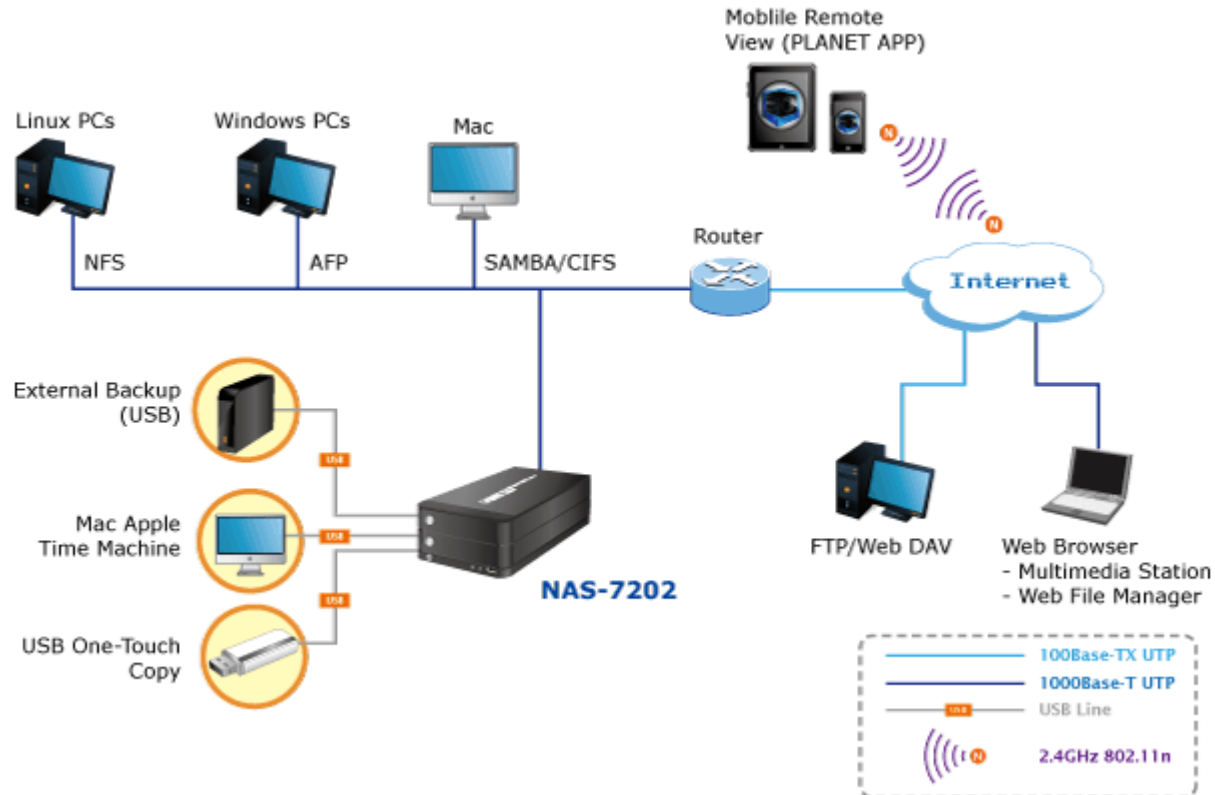

# Applications

- ◆ Easy use for SOHO user to share and download data storage needs. Also helps user to create a digital home life.

# Applications

- ◆ Reliable and affordable solution for SMB/SOHO data storage needs.

# Comparison

# Appendix

## ◆ Target Market

- ✓ Home
- ✓ SOHO
- ✓ SMB Office

## ◆ Target Customers

- ✓ **Who buy NAS**
  - NAS-7102
  - NAS-7201
  - NAS-7400
- ✓ **Who buy PLANET IP CAM (without NVR)**
  - Save-to-NAS (SAMBA) Ex. ICA-HM100, ICA-HM132
- ✓ **Who buy PLANET Digital Home Products**
  - DMA-200
  - ITB-3001
- ✓ **Who buy PLANET Gigabit Wireless AP / Router**
  - WNAP-C3220
  - WNRT-632
